Open!Info Manager Demo Setup

This Setup program installs the Open!Info Manager Demo software onto your system.   The program files will be copied to your hard disk, and Video for Windows will be installed to support playback of TrueMotion-S and Indeo 3.2 video files.

The hard disk destination path for the program files must not exceed **27** characters.

Prior to executing Open!Info Manager or Open!Info Reader, you need to restart Windows for the video driver settings to take effect.

To quit the Setup program at any time, choose the **Exit** button.
