A. This application was written by Matthew Drew. It was developed in support of the Integrated First-Year Curriculum in Science, Engineering, and Mathematics at Rose-Hulman Institute of Technology. This curriculum project is supported by the National Science Foundation, the General Electric Foundation, and Lilly Endowment, Inc. If you are interested in this or any other application written for the Rose-Hulman Institute of Technology First Year Integrated Curriculum, please contact us at ifycsem@nextwork.rose-hulman.edu. The following people are currently

serving as professors for the curriculum and would welcome your comments and

questions:

Dr. Claude Anderson, III, Computer Science
Campus Box 98

## ext. 8331

Dr. Jerry Fine, Mechanical Engineering Campus Box 140 ext. 8353

Dr. Jeffrey Froyd, Electrical Engineering Campus Box 111 ext. 8340

> Dr. Mike Moloney, Physics Campus Box 161

## ext. 8302

Dr. Howard McLean, Chemistry Campus Box 70 ext. 8378

Dr. Edward Mottel, Chemistry Campus Box 71 ext. 8315

Dr. Brian Winkel, Mathematics Campus Box 132

## ext. 8412

> phone 812-877-1511 or 812-877- ext.

B. This application best fits in the mathematics category.

C. Parametric is a parametric equation viewer. The program help students to visualize the trajectory of a two-dimensional parametric equation as time proceeds. It can also show the relationship of different components (tangential and normal) of acceleration. The parametric viewer can also adjust its scales to enable to user to view the trajectory all the time.

view the trajectory all the time.

D. This application is used as part of the Integrated First Year Curriculum in calculus

E. This application was developed under NeXTSTEP 2.1.

classes to view two-dimensional parametric equations.

F.	This application requires no special installation instruction.
	The Documentation folder included with the application is required for online documentation built into the application. If it is removed, the application will still function properly, except for Help.
