# Contents

## Preface

## CHAPTER 1: Before You Begin

## CHAPTER 2: Getting Started

Setting Session Preferences .....	2-2
Creating Network Pools .....	2-7
Changing User Authorizations.....	2-10
Modifying a User’s Authorization .....	2-10
Adding and Deleting User Authorizations .....	2-12

## CHAPTER 3: Setting Up a Basic Network Configuration

Setting Up User Accounts .....	3-2
Adding a New User Account .....	3-2
Modifying a User Account .....	3-5
New User Account and Modify User Fields .....	3-6
Deleting a User .....	3-10
Changing a User Password .....	3-11
Setting Up User Groups.....	3-13
Modifying Group Parameters .....	3-14
Deleting User Groups .....	3-15
Assigning Users .....	3-15
Setting Up Print Services .....	3-17
Setting Up a Local Print Service .....	3-18
Setting Up a Print Server for a Network Printer .....	3-20
Setting Up a Client Print Service .....	3-20

Deleting a Printer ..... 3-22  
Enabling and Disabling a Printer ..... 3-23

**CHAPTER 4: Managing the Network Systems**

Managing a User’s System Access ..... 4-3  
Managing Disk Partitions ..... 4-5  
    Viewing Usage by Filesystem ..... 4-5  
    Viewing Disk Usage by User Name ..... 4-6  
    Viewing Disk Usage by Group Name ..... 4-8  
    Building Snapshots ..... 4-9  
Managing Network File Systems (NFS) ..... 4-15  
    Mounting Directories on Hosts ..... 4-15  
    Exporting Directories ..... 4-20  
Managing Cron Jobs ..... 4-26  
    Configuring Cron Jobs ..... 4-26  
    Querying Cron Jobs ..... 4-30  
    Managing Cron Users ..... 4-31  
Archiving Files ..... 4-34  
    Adding Backup Devices ..... 4-34  
    Modifying Backup Devices ..... 4-37  
    Deleting Backup Devices ..... 4-37  
Performing Backups ..... 4-38  
    Full Backup ..... 4-39  
    Incremental Backup ..... 4-39  
    Scheduling Backups ..... 4-41  
    Modifying Scheduled Backups ..... 4-43  
    Status Logs ..... 4-46  
Configuring NIS and NIS+ Servers ..... 4-47  
    Adding an NIS Server ..... 4-47  
    Adding an NIS+ Server ..... 4-51  
    Deleting Server Configurations ..... 4-54

**CHAPTER 5: Monitoring Your Network Systems**

Monitoring UNIX Systems with Events ..... 5-3  
    How Events Works ..... 5-3  
    Adding an Events Test ..... 5-4  
    Entering Test Parameters ..... 5-7  
    Modifying an Existing Test ..... 5-12  
    Deleting an Events Test ..... 5-13  
    Copying an Events Test ..... 5-13

---

Viewing System Status.....	5-14
Interpreting the Status Map .....	5-14
Navigating the Status Map .....	5-16
Querying Events .....	5-16
Clearing an Event from the Status Map .....	5-19
Auditing Security Checks.....	5-20
Monitoring Logins, Processes, and CPUs .....	5-21
Monitoring Logins .....	5-21
Monitoring Process Status .....	5-23
Monitoring CPU Usage .....	5-24

## CHAPTER 6: Fine-tuning Your Systems

Dispatching and Managing New Events .....	6-2
Functionality .....	6-3
Policy Engine .....	6-4
Policy Definition .....	6-5
Manually Killing/Invoking PEP .....	6-7
Program Layout .....	6-8
Program Execution .....	6-8
Data Types .....	6-9
Program Syntax .....	6-14
Expressions .....	6-15
Implicit Conversions .....	6-18
Program Start-up .....	6-20
PEP Engine Program Example .....	6-20
Enterprise Management Database .....	6-22
Relational Database .....	6-22
Directory Structure .....	6-23
Database Access .....	6-24
Manually Killing/Invoking EMD .....	6-24
Terminating EMD .....	6-25
Starting EMD .....	6-25

## APPENDIX A: ENlighten/DSM Basics

Global Program Functions.....	A-2
Close Icon .....	A-2
Wizard Icon .....	A-2
Mail Icon .....	A-3
Refresh Icon .....	A-4
Sort Icon .....	A-6
Help Icon .....	A-7

List Function Buttons .....	A-8
Selection Options .....	A-8
Printing .....	A-9
Searching .....	A-9
Performing Actions on List Items.....	A-11
Confirming Requests .....	A-12
Graphs .....	A-13
Creating Defaults .....	A-14
Network Pools.....	A-15
Performance Expectations .....	A-16
Large Lists .....	A-16
Disk Snapshots .....	A-16
Data Requests and Sorts .....	A-17

**APPENDIX B: Troubleshooting**

Errors .....	B-2
Problems.....	B-4

**APPENDIX C: De-installing ENlighten/DSM**

**Index**
