NOTE 1:

This program is written in Visual Basic. Thus it needs the **VBRUN300.DLL** to run. If you got your copy from an online service or bulletin board take note:

Some BBS Sysops remove the VBRUN300.DLL file from Windows
programs that use it in order to save disk drive space.
If you are missing the VBRUN300.DLL file, log back on to
the service or BBS it came from, and, if you can't easily
find the VBRUN file, leave a comment to your Sysop asking
how he/she allows people to acquire it.

NOTE 2:

It has come to my attention that certain SVGA video hardware is non-compatible with the MicroSoft Visual Basic Environment and causes problems with the bitmaps (pictures) every so often in 800 x 600 mode and more often in 1024 x 768 resolution. Buttons will be misplaced in relation to maps, etc. At the moment there is one solution:

Open the Windows Setup icon and select CHANGE SYSTEM SETTINGS
from the OPTIONS menu. Follow the prompts to change your video mode
to a 640 x 480 OR a high resolution driver using SMALL FONTSresolution
driver. The game will now run fine. When you're finished, return to Setup
and re-install your original driver.

NOTE 3:

====Installing The World Empire III Icon====

How to install your program as an Icon with the
Windows' Program Manager.

1. First install the program in a DOS directory,
outside of Windows.

2. Start up Windows and open the PROGRAM MANAGER.

3. Click once on the GROUP in which you want the
new World Empire III Icon installed.

4. Go up to the menu bar at the top of your screen
and click on the word FILE.

5. A menu drops down. Click on NEW.

6. You will see a window with two choices. Select
PROGRAM ITEM. Then click on OKAY.

7. Another window appears entitled PROGRAM ITEM
PROPERTIES.

8. Click in the box labeled DESCRIPTION. Type
"World Empire III".

9. Use the tab key or mouse and go to the box
labeled COMMAND LINE. Type the full name of the
path to the directory where you have installed
World Empire III, and the name EMPIRE.EXE. For example,
if the program is in a directory called EMPIRE on the
C drive you would enter C:\EMPIRE\EMPIRE.EXE in the
box.

10. Use the TAB key to go to the box labeled WORKING
DIRECTORY. Type the name of the directory in which
you installed World Empire III. For example, if you
installed the game in a directory called EMPIRE, then
type C:\EMPIRE.

11. Now click on OKAY in the PROGRAM ITEM PROPERTIES
Window.

You should now have the World Empire III Icon installed
in your PROGRAM MANAGER. Enjoy the program!

PROGRAM REQUIREMENTS:

IBM Compatible Computer with an 80386, 486, or Pentium
    processor running Microsoft Windows 3.1 or higher.
A hard disk drive.
A mouse is required.

LICENSE INFORMATION:
