How to Use This Catalog

This electronic catalog gives you a brief overview of products produced by Henning Associates. All of the programs in this catalog can be ordered by sending in the [order form](#) or by calling our toll free phone line -

1-800-823-6896.

Each program is presented in a single topic and gives you a description of the program and a screen shot of the program presentation. All of the programs are shareware and are available on AOL and Compuserve. Many of the programs have made their way to BBSs throughout the country and soon the programs will be a part of the WWW.

On AOL you can find the programs by going to the Computer Software dialog. To reach this area click the speed bar icon that has a diskette and magnifying glass. Select Windows software and use the search parameter Henning. This will give you a list of all Henning Associates products and a couple of other programs that happen to meet the search criteria.

On Compuserve go to WinShare, or WinProd. Select the library search button and use the contributor parameter of 72176,2507. This will list all Henning Associates shareware.

On Microsofts new network - MSN - use the go word Henning to access all of the programs. This is our support BBS and you can download software and leave messages for us there.

If you do not have access to AOL or Cserve and cannot find the programs on your local BBS then request a shareware diskette on the [order form](#) and we will send you a diskette with all of the shareware on it.

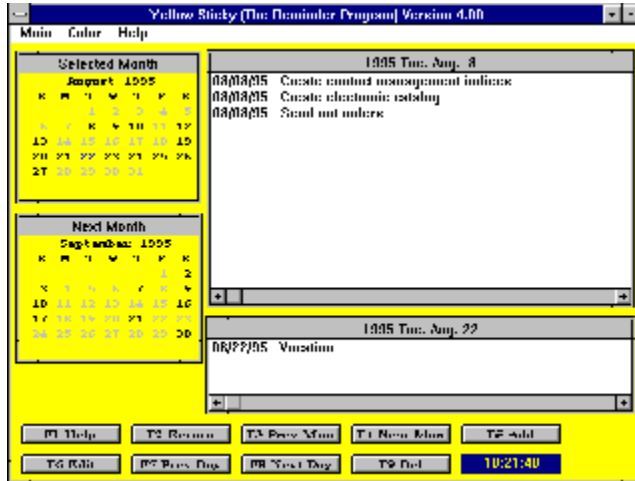

Your satisfaction is guaranteed and if a purchased product does not meet your needs or your expectations you can return it for a full refund.

Thanks for shopping with us.

Mike

[Catalog Index](#)

Yellow Sticky

Yellow Sticky is a daily to do list. The program helps you to organize your day by listing the items that you need to do. Items that have not been completed from previous days are carried over to the current day. This program can also be used as a pend file for calls/to do items that you have to schedule months in advance. The price of Yellow Sticky is \$15.

[Catalog Index](#)

Postit

Postit is a popup notepad for Windows. It is about the same size as a stick up note but it is electronic. There is no cumbersome file management just a convenient method of getting rid of the sticky notes that you have all over your computer monitor bezel. The price of Postit is \$10.

[Catalog Index](#)

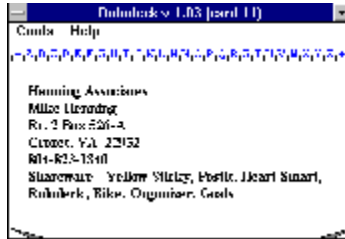

Desktop Organizer

Desktop Organizer combines the features of Postit, a to do list, phone message center, and a calendar. The to do list is not as extensive as the list in Yellow Sticky. The phone message center provides an easy method of taking and printing phone messages. The price of Desktop Organizer is \$15.

[Catalog Index](#)

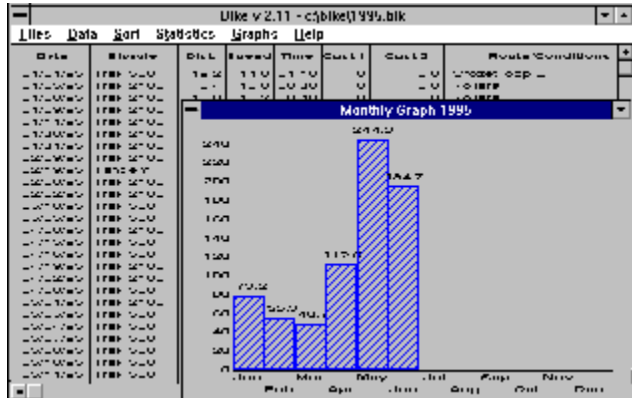

Rolodeck

Rolodeck is a business card file on your computer and a replacement for the manual one you have on your desk. Information from the business card is entered into the window and then can be retrieved by using the alphabet bar or the search function. The price of Rolodeck is \$8.

[Catalog Index](#)

Bike

Bike is a bicycle training log. This program allows you to store ride data and keep track of ride and training statistics. The program features graphs and has two design your own fields for keeping track of the data that you want. The price of Bike is \$15.

[Catalog Index](#)

Goals

Goals is a freeware program (Yes Virginia, there is a Santa Claus.) This program is designed to help you set and achieve your goals. To paraphrase Henry David Thoreau - Anything that your mind can conceive and believe will meet with success. Included with this program are instructions how to set goals and why goals are important. This program is a must have for the extraordinary individual who is ready to start the world ablaze. And best of all, it is free.

Custom Programming Available

Henning Associates also does custom programming. In today's electronic age it is not necessary for your programmer to be at your facility all of the time. Henning Associates can be your custom programmer and you do not incur the cost of a full-time employee. Using modern development tools rapid prototyping can be done for your specific project and you will be involved in every aspect of the software development.

Custom programming can be done on an hourly or complete job basis. If you have any questions about these services please call or write Henning Associates.
