To register, simply print and fill in this form and mail it along with a check or money order to the address shown below. Each user is expected to register their own copy.

After registration you will receive a post card in the mail with the registration number for your version of the Signature Program. Use the SignSet program's **Help/Enter Registration umber** menu item to enter your registration number.

You can order one or more Signature Program disks. Remember that you are free to make as many copies of the Signature Program as you like, so you are under **no obligation to purchase disks**. However, many people like having an "official" master copy.

You can continue to distribute copies of the Signature program disk after registering your copy. However, **please do not share the registration information with un-registered users**. This helps us keep the fee as low as possible.
