Interface java.awt.peer.ListPeer

public interface **ListPeer**
extends Object
extends ComponentPeer

Method Index

o **addItem**(String)
o **clear**()
o **delItems**(int, int)
o **deselect**(int)
o **getSelectedIndexes**()
o **makeVisible**(int)
o **minimumSize**(int)
o **preferredSize**(int)
o **select**(int)
o **setMultipleSelections**(boolean)

Methods

o getSelectedIndexes

```
public abstract int[] getSelectedIndexes()
```

o addItem

```
public abstract void addItem(String item)
```

o delItems

```
public abstract void delItems(int start,
                              int end)
```

o clear

```
public abstract void clear()
```

o select

```
public abstract void select(int index)
```

- **deselect**

```
public abstract void deselect(int index)
```

- **makeVisible**

```
public abstract void makeVisible(int index)
```

- **setMultipleSelections**

```
public abstract void setMultipleSelections(boolean v)
```

- **preferredSize**

```
public abstract Dimension preferredSize(int v)
```

- **minimumSize**

```
public abstract Dimension minimumSize(int v)
```
