Interface java.awt.peer.TextComponentPeer

public interface **TextComponentPeer**
extends Object
extends ComponentPeer

Method Index

o **getSelectionEnd**()
o **getSelectionStart**()
o **getText**()
o **select**(int, int)
o **setEditable**(boolean)
o **setText**(String)

Methods

o setEditable

```
public abstract void setEditable(boolean editable)
```

o getText

```
public abstract String getText()
```

o setText

```
public abstract void setText(String l)
```

o getSelectionStart

```
public abstract int getSelectionStart()
```

o getSelectionEnd

```
public abstract int getSelectionEnd()
```

o select

```
public abstract void select(int selStart,
                            int selEnd)
```
