(Note: http://www.kagi.com/tagger/ is a link to the Tagger Home Page, which is currently http://www.xis.com/~ruckman/tagger.html but will be changing in approximately May 1997.)

This template contains only the macros; other information is in the accompanying file TAGGER40.DOC. The files were separated to minimize the size of the template that Word loads upon starting up each time.

INSTALLING TAGGER 4.0: The Tagger distribution package includes a template named **INSTALL.DOT** that contains full installation instructions and a macro to install Tagger automatically. Simply open INSTALL.DOT and follow the instructions.

PURCHASING TAGGER 4.0: Purchasing Tagger licenses is easier than ever. Simply follow these instructions:

1. Run Tagger and press the "About…" button in the main dialog box.
2. Read the license agreement.
3. Press the "Click here to register Tagger!" button, which runs a special program called "Register" that includes complete purchasing instructions.
4. Follow the instructions to pay for your copy of Tagger by credit card, check, money order, First Virtual, or even cash. If you are specifying a purchase for your business, the program can also print an invoice containing instructions for your company's purchasing department.

WHAT'S NEW IN TAGGER 4.0?
