SHAREWARE

Shareware is full commercial software that you can try out before you pay for it. It is distributed by Shareware distributors such as Web sites, CD-ROM distributors, Computing magazines or by copies passed around among friends.

- Trying out the software allows you to determine whether it suits your needs and whether it runs correctly in your specific environment. At the end of the trial period, you should buy a licence if the software suits your needs and if you decide to continue using it (see **REGISTRATION** hereafter).

- The software and its documentation are complete and no essential function is lacking. This should help you to make your registration decision with full knowledge of the facts.

Thank you to support the Shareware system by purchasing licenses for the products that you use !!! No product can survive without someone paying for its development !!!

ASP

The "Association of Shareware Professionals" rallies Shareware authors and distributors committed to following a certain number of guidelines, "directions for use" of the Shareware. The action of the ASP contributes to educating authors, distributors, and users, and to improving the professional level of this activity.

ASP OMBUDSMAN

This software is produced by a member of the Association of Shareware Professionals (ASP). ASP wants to make sure that the shareware principle works for you. If you are unable to resolve a shareware-related problem with an ASP member by contacting the member directly, ASP may be able to help. The ASP Ombudsman can help you resolve a dispute or problem with an ASP member, but does not provide technical support for members' products. Please write to the ASP Ombudsman at 545 Grover Road, Muskegon, MI 49442-9427 USA, FAX 616-788-2765 or send a CompuServe message via CompuServe Mail to ASP Ombudsman 70007,3536.

REGISTRATION

With your registration, you will receive an identification key that will eliminate the Shareware reminder messages, and the latest version of the product. Your name will also appear in the "About" menu, instead of "Unregistered copy".

Your registration also includes access to the future versions : you won't have to pay any additional fee for using these versions. Your key will work for these versions or I will provide you with a new one (just ask me). Notice however that I won't be able to send new diskettes for free when releasing new versions. So please, get these versions on the Web, or order additional diskettes.

Your registration finally includes support and bug fixes. Unless particular emergency, bug fixes will be integrated to the next version.
