

ReadMe for JRE Home Inventory

Copyright © 1992-1994 JRE Enterprises, All Rights Reserved

This package contains JRE Home Inventory, by JRE Enterprises. This document contains only a brief description of the package and its features, along with instructions for its installation. After unzipping JRE Home Inventory, view INSTALL.WRI for additional installation instructions.

JRE Home Inventory will keep track of all your household items for insurance purposes. Categorize items by house, room, insurance policy and type, and personal category. Eleven different types of reports with many options for tailoring. True print preview, ability to change printer and screen fonts. Requires VBRUN300.DLL and Windows 3.1.

JRE Home Inventory is a shareware program. This evaluation version includes all features of the program, and is not crippled in any way. You may use it for up to 30 days, without charge. If you like the program, and wish to continue its use after this evaluation period, you are required to pay for the program (see REGISTER.WRI for more details). Any fee you may have paid to others (disk vendors, dealers, etc.) to obtain this evaluation version was a fee for their copying and distribution services, rather than a payment for continued use of the program.

View REGISTER.WRI for current registration costs. Registration also can be done on CompuServe (GO SWREG, title "JRE Home Inventory", registration id 225). Stop the annoying "Unregistered Shareware" messages and stop the printing of the "(Unregistered Shareware)" footnote by registering today!

Also available from JRE Enterprises are programs JRE Exit, My Life, Win Change, Win Multiple Configurations and Writer's Cramp. **JRE Exit** is a freeware utility that provides four different ways to exit Windows. **My Life** is the definitive diary, word processor, scrapbook, and multi-media scrapbook available for Windows. **Win Change** is the only utility that allows you to make global changes to text strings in GRP, INI, PIF and other types of files. **Win Multiple Configurations** is the only utility that allows up to 100 different Windows configurations to be saved and restored! **Writer's Cramp** is a simple, small, inexpensive word processor. These programs can be found on CompuServe (WINSHARE forum) and America Online (Windows software) with a keyword of JRE.

JRE Enterprises can be contacted on CompuServe via mail to ID 71162,2311 or contacted on America Online via mail to ID Leel641756.
