## 1.1 EasyCatalog: ReadMeFirst

EasyCatalog is public domain. You can use it any way you like as long as you
don't alter the program and keep all files together.

The author can not be held responsible for any damage caused by the (mis)use
of this program in any way.

You may freely distribute this program as long as you don't charge more than
the price of a disk and post & package.

Inclusion in a commercial package is forbidden without the permission of the
author.

## 1.2 EasyCatalog: Main

                            EasyCatalog V0.8ß

             Read Me First

             Contents

             Creation
            EasyCatalog is a editor for .catalog files. This version is a beta ←
                -release.
The main program is totally operational, but there is no real user-guide yet
for this program.
In version 1.0 there should be on-line help via the 'Help' key and a
user-guide available in English and Dutch (Nederlands).
Also there should be a installer script using
             Installer
              from Commodore.

The reason I released this version is that I think it's a real handy
utility for all coders that want to use the locale.library. Most of the
coders known how to use programs like these and don't need a user-guide

so hard.

## 1.3 EasyCatalog: Installer

```
Installer (c)
Copyright 1991-93 Commodore-Amiga, Inc.
All Rights Reserved
```

If you don't have installer, you can find a 1.3 compatible version
on one of the AmigaLibDisks.

## 1.4 EasyCatalog: Contents

```
Drawer  EasyCatalog                 The main drawer
File        EasyCatalog             The program (0.8ß)
File        EasyCatalog.info        The icon for the program
File        EasyCatalog.guide       The guide for the program
File        EasyCatalog.guide.info  The icon for the guide for the program
Drawer      catalogs                The drawer that contains the catalogs
Drawer        english               The drawer for the english catalogs
File              easycatalog.catalog The english catalog (as example)
Drawer        nederlands            The drawer for the dutch catalogs
File              easycatalog.catalog The dutch catalog
```

I added a english catalog as a general example and for people who want to
translate it to there own language.

## 1.5 EasyCatalog: Creation

```
Type        Amiga     Processor(s)/Mhz      Chip    Fast   Kick       HardDisk

Created     A1200     68030/25   68881/25   2Mb     4Mb    3.0  (39)  120Mb
Tested      A1200     68EC020/14            2Mb            3.0  (39)  120Mb
Tested      A500      68000/7               1Mb     2Mb    2.1  (38)
Tested      A500      68000/7               1Mb            2.04 (37)
Tested      A4000/30  68030/25              2Mb     2Mb    3.0  (39)  120Mb
Tested      A2000     68000/7               1Mb     2Mb    2.04 (37)  80Mb
