RelayNet Shareware Conference: D

Use this spreadsheet to import DiskUse delimited text. With this you will be able to easily create more useful, quality DiskUse information.

How to import DELIM.TXT:

1. Use DiskUse under option /E (e.g., DISKUSE /E C:)
2. Go to Quattro Pro set cursor beneath IMPORT FILE HERE...
3. Go to the menu bar at the top of the screen, select the menu TOOLS.
4. Select the option on the menu TOOLS marked IMPORT.
5. In the tools window, select Comma and " Delimited Text
6. Select DELIM.TXT (make sure you have the right directory), and press return

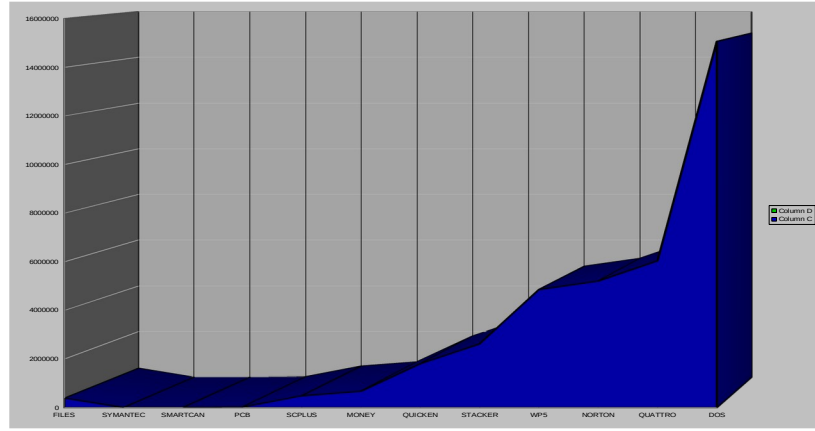

Import File Here (Delete sample data first):

Directory	Bytes	Percent
FILES	393747	1.1
