

## If You Missed Earlier Copies of The Disc!

We've been happily deluged with requests for copies of our first few discs. With each disc ordered, we include photocopies of the Disc! Pages from that issue -- those are the pages that explain what's on each issue of The Disc! and how you use it. For those interested, the price is \$6.95 per Disc!, plus \$1.00 shipping, handling, and packaging (that is, \$7.95 total for each disc).

Send your requests to:

Disc! #1 Order (or Disc! #2,#3, #4, or #5--whichever is appropriate)

The DISC! #1 - Star Trek: 25th Anniversary game (entire first level); Windows interface to the Internet, more than two dozen sci-fi novels, Doom 1.2 and Wolfenstein 3-D shareware versions, and much, much more.

The DISC! #2 - 3-D Body Adventure, TuneLand, and Forever Growing Garden; game samples such as the wonderful Myst, Spear of Destiny, and Theme Park; multimedia tools and editors; a gallery of video clips; Internet info, a library of American classic novels and stories; and some top shareware -- plus even more.

The DISC! #3 - Leonardo, the Inventor interactive demo; an advance peek at Monty Python's Flying Circus Complete Waste of Time; a working demo of Q/Media; Sam & Max Hit the Road, Sim City--the CD-ROM version, Pinball Fantasies, Corridor 7; fonts and photos resources; Wiggins in Storyland, Adventures with Oslo (Science for Kids), a bookshelf of children's classics, over 30Mb of shareware for the Mac, plus Mac demos of How God makes God, The Cruncher, and Ascend, the versatile PIM.

The DISC! #4 - 60 megabyte interactive demo of The Discoverers, and other working demos such as Little Monster at School, My Favorite Monster, Flying Nightmares, Baseball's Greatest Hits, Loderunner for Windows, Companions of Xanth, Exploring Ancient Cities, Raptor, The Indian Question, and Corkboard, Final Draft, Hyperstudio and Painter 2.0 for the Mac; sneak peaks of Hell, Star Crusader, Outpost, Inca II, Complete Baseball, AstroChase 3D and Quick Time: The CD 1994.

The DISC! #5 - Demo of the Discovery Channel titles, a Beastie Boys screen saver, card games for Windows, a Bird Songs hyperstack, a peek at Warplanes, the Star Trek manual (Mac side only), the Consumer Survival Kit and Voyager's Defending Human Attributes, plus Mac shareware spectacular, and Dream Vacations Hawaiian Style.

The DISC! #6 - Long-awaited mega-production from Origin, Wing Commander III; five offerings from DK Multimedia -- The Way Things Work, The Ultimate Human Body, Encyclopedia of Science, Incredible Amazing Dictionary, and Stowaway! Our readers also got a taste of a new pop magazine-on-CD, Blender; demos for some exciting new games, plus some shareware that will surprise you with its sophistication.

The DISC! #7 - Skiing programs - Ski Odyssey, Ski Utah and Skiers Encyclopedia; People Magazine, Spinal Tap and Saturday Night Live CDs, a host of un-installers, and DOS

games like Cyberia, Cyber War, Dominus, Lords of Midnight and Renegade. In addition to People, Spinal Tap and Saturday Night Live, the Mac users got to review Domark's Out of the Sun flight sim, Voyager's For All Mandkind (with Quicktime 2.0), and Claris' Amazing Animation.

The DISC! #8 - Educational demos, including the Learning Company Sampler, Peter and the Wolf, The Treasure Hunt, Thumbelina, DK Multimedia Sampler; reference resources and applications such as Sources of Faith, Paper Planes, Curio Strip, Historical U.S. Documents, Playboy Interviews; gaming excitement with The Fortress of Dr. Radiaki, Creature Shock, Drug Wars, Klik & Play; Macintosh and PC shareware.

The DISC! #9 - A game spectacular featuring Retribution, Aces of the Deep, Noctropolis, The Lemmings Chronicle, Casino, Power Monger, Fury of the Furies, Eat My Photons, Wrath of the Gods; resources, references, and useful applications, including Sources of Faith, Paper Planes, At Bat, Discovering Utah, Media Maestro LE, Vistapro, Four Paws of Crab, Classics of English Literature; also, edutainment from Harry and the Haunted House, Putnam New Media Sampler, Snoopy's Geography, plus more shareware for both the Mac and the PC.

The DISC! #10 - Some super sports items here, like ESPN Championship Coaching Tips, Ted Williams bio disc, World Cup Golf; also The Rosetta Stone, EA-Kids Sampler, and Discover the Elements; or play demos of Jewels of the Oracle, World of Illusion, and Warcraft; plus EasyPhoto, Shadowboxes, picture gallery, an Internet library and loads of shareware.

The DISC! #11 - Do-It-Yourself multimedia issue, with Easy Photo and Morph Studio. Working copy of Hyper Studio. Multimedia Typing, EA Kids' Art Center, Count on Frank, and Astronomica make learning fun. Amazing games with BioForge, Dark Forces, Magic Carpet, Metal Tech: Battledrome, System Shock, Zorro, and Wukung. Plus shareware, digizines, Musicnet and a Medio Sampler.

The DISC! #12 PC owners can watch a step-by-step video tutorial on how to upgrade a MPC. Sign up with America On-Line and find out all about the valuable services you've been missing. Gamers will have endless fun with playable demos of games like SlipStream 5000, Full Throttle \, Absolute Zero, Super Wing Commander for Mac, Virtual Pool, Brett Hull '95 Hockey, Hard Ball 4, Shanghai: Great Moments, Jewels of the Oracle, Earth Siege, Thunderscape and more! Plus, a generous portion of shareware and a new collection of British Classics from our digital library!

Please include a check for \$7.95 payable to GP Publications, Inc., for each disc ordered.
