

These updated drivers are required to view movies recorded with Intel Indeo (TM) R3.2, which supports 320x240 at 30 frames per second, with much improved playback rate and higher quality. The sample THEKIDS.AVI and THEKIDS.MOV are recorded in this Indeo format.

i322qt.bin - For Macintosh, updates Quicktime to support Indeo R3.2  
i322qw.exe - For Windows, updates Quicktime 2.0 for Windows to support Indeo R3.2

Note: Quicktime drivers for Windows and Mac are not included here. The updates assume you already have installed Quicktime 2.0.

iv32rt.exe - For Windows, Video for Windows runtime 1.1D with Indeo R3.2

thekids.mov - Quicktime for Windows .MOV video  
Ready for Apple, but without resource fork

thekids.avi - Video for Windows .AVI video

Both videos are identical. Video for Windows gives slightly better results on Windows platform.
